Industrial Designer

I am a solution-oriented and collaborative designer who thrives in hands-on, team-driven environments where ideas grow through shared creativity. I've explored a wide range of materials and techniques, with a particular passion for softgoods and textile manipulation. I value clear communication, enjoy creative problem-solving, and care deeply about thoughtful, intentional design. I'm motivated to bring innovative, out-of-the-box ideas and fresh perspectives to a dynamic, forward-thinking team.

EDUCATION

Bachelor of Design in Industrial Design, Emily Carr
University of Art + Design
2020-2024, Vancouver, BC

EXPERIENCE

Product Coordinator, Pottery Barn Teen

March 2025-Present, San Francisco, CA

Supported the design team through sample management, presentation prep, vendor communication, and PLM tracking. Maintained organized documentation, managed supplies, and kept the studio, sample room, and material libraries orderly. Proactively identified team needs and provided timely support across tasks.

Specialist, Apple

May 2022-March 2024, Vancouver, BC

Delivered exceptional customer experiences by advising on, selling, and setting up new devices. Partnered with cross-functional teams to meet customer needs effectively. Executed store resets, aligning with brand visual standards. Organized daily store closing initiatives to provide a more efficient experience for the team.

Student Researcher, Vancouver Art Gallery

May 2023-Oct 2023, Vancouver, BC

Participated in Lab: Here//Too//For, Fashion Fictions exhibition. Cultivated innovative design practices. Co-created textiles amongst peers and colleagues. Facilitated community weaving exercises.

Denim Coordinator, Aritzia

Jan 2022-Sep 2022, Vancouver, BC

Collaborated with head of denim to design, prototype and produce Aritzia's denim products. Worked with overseas manufacturers to coordinate samples. Provided input and documented key points during fitting meetings.
